

100% Natural Clear Wax is the #1 Seller Top Coat and Finish for DIY Paints.
Add wax to your piece as the final step. Customers LOVE IT.

- Apply clear wax with a wax brush using circular motions.
- Spread a small amount of wax evenly over sections- avoid clumps.
- Allow wax to dry 4-24 hours.
- Buff waxed areas with a clean lint-free cloth in circular motions for a hard finish.
- Watch video tutorials at Debi's Design Diary on Yout Tube:
- This is a great tutorial that shows at end how easy it is to use Clear Wax:

With wax, remember: LESS IS MORE. You can always add more wax after it has dried and you have buffed it.
